

Why choose Liniar?

The Liniar brand is synonymous with innovation and quality.

At a glance...

- Part of the Flamstead Group, owned by Quanex Building Products
- All materials are 100% lead-free and fully recyclable
- Systems Company of the Year (National Fenestration Awards 2014)
- £70m UK turnover
- 500+ employees

Designed and manufactured by HL Plastics at its purpose-built extrusion facility in the heart of Derbyshire, Liniar products are loved by fabricators, installers, developers and specifiers all over the UK.

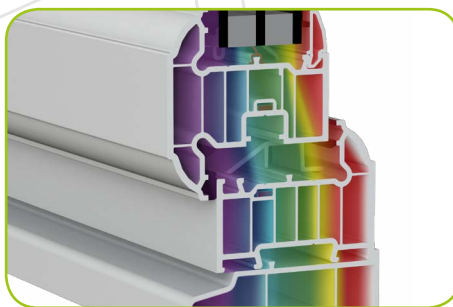

The Liniar window system was designed from scratch for the ultimate in thermal performance, with A++ Windows Energy Ratings easily achieved.

Continued investment in infrastructure, technology and a great team of people has led to market leading success and sustainable growth.

Fully matching

The Liniar range is available in a wide choice of plain and beautifully foiled colours from stock. Special colours are also available on longer lead times.

Energy efficient PVCu

With a focus on thermal efficiency, the Liniar range can achieve A++ energy ratings with ease, thanks to its specially designed symmetrical chambers.

Aluminium bi-folding doors

Alumina bi-folding doors can be foiled to match PVCu windows – and with U-values as low as 1.2, provide the ideal finishing touch.
