- C** 4, 8

Bespoke (Use page 2 to provide more details) :

Deck Height (m) : _____

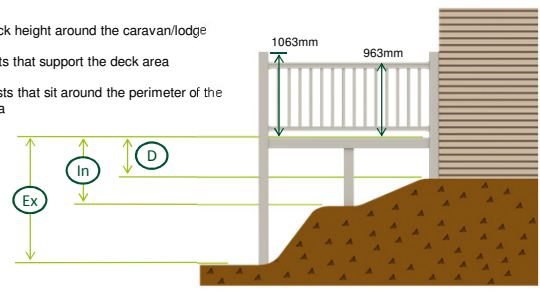

Additional Survey Information

Only required for land that runs out more than 100mm

Int. Post Height (m) : _____

Ext. Post Height (m) : _____

- Average deck height around the caravan/odje
- Internal posts that support the deck area
- External posts that sit around the perimeter of the decking area

1) Decking Kit Order Form

If selected 'Bespoke' on Page 1, please provide a diagram below with all sizes required :

Survey Guide :

1. Ensure the position of windows and doors are taken into consideration when measuring up the deck area.
(Windows around the step area can interfere with full height posts)
2. Overall handrail height will be 963mm from the deck height for standard kits.
3. The post height will be 1063mm from the deck height for standard kits.
4. Again, a Liniar decking kit will not include skirting or lights. These will need to be ordered through a Liniar bar length order form.

Further Details Required:

Please also supply the following details if possible :

- Step position
- Building measurements
- Any downpipes or interfering items
- Location of deck
- Caravan/Lodge measurements if skirting is to be ordered separately
