

Thank you for choosing Liniar

Your new decking system was designed and manufactured in the heart of the UK, at Liniar's HQ in Derbyshire.

10 Year Warranty

Liniar deckboards, balustrade, sub-frame, fencing systems and trims carry a 10 year warranty.

Please see www.liniar.co.uk/warranties for full details and see overleaf to find out how to care for your new decking.

Please note that failure to follow Liniar's care instructions may result in your warranty becoming invalid.

Fully Accredited

The Liniar system has been designed and manufactured in the UK since 1999 and comes with the following accreditation for peace of mind:

- ✓ All components (except steel) are made in our own factory to the latest ISO 9001 (Quality) and ISO 14001 (Environmental) standards.
- ✓ All deckboards have a Class 1Y Fire Safety Certificate to BS476: Part 7.
- ✓ Slip resistance has been successfully tested to BS 7976.
- ✓ Wear resistance has been successfully tested to BS EN 428.
- ✓ The decking system has been tested to a load capacity in excess of 500kg/m².

Thank you for choosing Liniar

The following tips should be noted before cleaning to help to keep the appearance and function of your decking in optimum condition for many years to come.

General Tips

We recommend that hot surfaces such as barbecues or fire pits should not be used in conjunction with PVCu decking – keep them at least 1m away.

Furniture may scratch if dragged along the surface of your deck – use protectors under chair feet where appropriate.

Some rubber-backed mats may cause discolouration of deckboards if left in one position for a period of time.

Avoid applying sun cream and insect repellent whilst on your decking - chemical components in these products may cause permanent staining to foiled balustrades.

Do not leave metal legged furniture or appliances on decking as they can create rust spots which are hard to remove.

Do

- ✓ Frequently wash handrails and posts with a soft cloth and warm, soapy water and wipe dry.
- ✓ Use a stiff bristled brush with warm, soapy water or a jet wash to regularly clean the deckboards.
- ✓ Clean any spills with a non-abrasive cleaner (test first in an inconspicuous area of your deck before usage.)

Don't

- ✗ Use glass cleaner on the deckboards or balustrade.
- ✗ Leave spills for a prolonged period of time - this can result in permanent staining.
- ✗ Use any type of bleach, solvent (e.g white spirit, methylated spirits, nail varnish remover) or adhesives.
- ✗ Use abrasive papers, such as sandpaper, or metal snow shovels on your deck.
