Linear soffits and fascias are designed and manufactured at the same UK extrusion facility as its range of windows, doors and roofs.

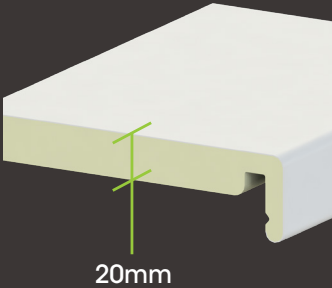

Linear fascia boards are 20mm thick, instead of the industry standard 16mm, providing greater strength, with longer legs and extra cover on mouldings for easier fitting.

Pre-marked and lined protective tape on the boards makes it easy to find the centre line for the rafter end. The pin guides are set at 100mm centres on each line, and the lines are set at 25mm intervals – to make installation as simple as possible.

The ideal alternative to timber without the ongoing maintenance, Liniar's PVCu cladding range can be used on a wide variety of buildings and installations.

150mm interlocking boards with a hidden fixing design provide an elegant finish to a home's exterior – with no sanding, painting or staining required.

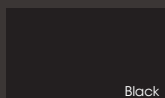

D-S3-D1 Fire Safety rated, one of the best results for PVCu cladding on the market, the range is available in four colours from stock and covered by the Liniar 10 year guarantee.

Available in 5m lengths in packs of 2

White  
Code: WW

The Liniar range was designed from scratch with installers in mind. That's why some of its features are slightly different to other PVCu systems you may have fitted before.

Liniar offers a range of installation support, from guides to videos, showing you how to install its windows, bi-folds, patios and conservatory roofs for the perfect finish.

Visit the Liniar website at [www.liniar.co.uk](http://www.liniar.co.uk) for more information and subscribe to the LiniarUK YouTube channel to stay updated with the latest videos.

The Liniar system has been developed by an innovative design team, resulting in a wide range of matching products for the whole property.

## Windows

The Liniar system is the most technically advanced PVCu profile in the UK – and casement windows can achieve an A+ Windows Energy Rating with double glazing and A++ with triple glazing.

## Doors

The Liniar range of PVCu front doors is designed to match perfectly with windows to create a co-ordinated appearance and a draught-free entrance to your home.

## French Doors

Liniar's stunning range of PVCu French doors comes with the same high specification and colour options as its window range, with patented low and ultra-low threshold options.

## Patio Doors

You'll be amazed at how different the stunning Liniar patio range is from traditional patio doors, with its ergonomic design, effortless opening mechanism, smooth motion and noiseless.

## PVCu Bi-fold Doors

The Linar PVCu bi-fold is also available with patented ModLok™, offering extra security and additional strength by seamlessly combining reinforcement to fully open up your room.

## Alumina Bi-fold Doors

Linar's unique aluminium bi-fold door, Alumina spans apertures up to 6.5m wide, with sashes up to 1.2m wide and 2.5m high - and can even be fully foiled.

## Conservatories

Using the latest technology to bring you the most energy efficient glazed roof system in the UK, the Linar roof is available in a huge choice of styles, shapes and designs.

## Decking

Linlar decking is perfect for a low maintenance finish - with plain or foiled balustrades and a range of woodgrain deckboards.

## Fencing

Linlar's ranges of PVCu fencing, decking and piling products offer a high quality, low-maintenance option for landscaping.

## Piling

With five styles of piling for a range of applications, including Linlar's innovative log pile, which provides an attractive finish for any retention project.

## 6 great reasons to choose Liniar

**Liniar Approved** - All installation products in the Liniar range have been tested and given the Liniar stamp of approval.

**Colour matched** - Ensure a perfect match with the Liniar Approved range of trims and silicone sealants - colour matched to our stock range.

**British made** - Everything in the range is made in the UK, with all foam trims being designed and extruded at HL Plastics own factory.

**Quality assured** - All products in the Liniar Approved range have been selected for their

high quality, ensuring the perfect finish for your installations.

**One stop shop** - Collect your installation supplies when you pick up your windows.

**Guaranteed** - All Liniar Approved trims carry the same warranty as our window products, providing a single point of guarantee for customers.
